

The United States Army Soldier

The recorded history and noteworthy accomplishments of every unit is determined by the Soldiers of that unit. Everyday Soldiers of all units accomplish great things with their service to our Army and Country. The type of devoted service history will record for the future. Some will just say they could have done it. The Soldiers of the United States Army can say they did it, and they did it well. In the future someone will ask who you served with. You can tell them with pride that you served our Country with honor and courage as a dedicated Soldier. The total debt to the Soldier will never be paid with money, but it will be paid with the pride and respect of having served in the United States Army.

“Iron Soldiers”
